Fellow Residents and CPII Owners

We wanted to send out a **safety reminder** when having guests over. As you know, CPII does not have anyone who monitors the front entrance, so we residents rely on each other and the call box for safety. **Please do not allow people you do not know to follow you into the building.** Also we are nearing the holiday season and many packages will be delivered. Please use caution when letting delivery people into the building. You can be courteous and offer help with the call box if you choose, **but please be mindful of our safety.**
